Twist-Lock Cylindrical Cartridge

Twist-Lock Cylindrical Cartridge Filter

DRB Industries' **Twist Lock Cartridge Filter** is specifically designed as a direct replacement for **Pneumafil Pulse Cleaning Systems**. Our **Twist Lock Cartridge** comes with a twist lock top and all the high filter performance features you expect from **DRB Industries**. Media options are available in both **80/20 Blended Media** and **100% Synthetic Media**. We use **Pleated Separators** to maintain proper spacing both inside and outside of the pleat pack. As always, all **DRB** cartridge filters come with 100% air-tight adhesive to prevent bypass, and a seamless rubber gasket for secure fit. Our **Twist Lock Cartridge** comes standard with **G-60 Corrosion Resistant Zinc Coating** or optional **Stainless Steel** is available.

Fits FARR Tenkay Pulse Jet Air Filter Systems & S & S LM2500, LM5000 and LM6000 Air Filter Systems

A more efficient, cost effective replacement filter for FARR & LM series air filters than the leading competitors
