

Kool Pack GT Gas Turbine Evaporative Cooling Pad

Kool Pack introduces its new GT Pad (Gas Turbine) Evaporative Cooling Pad – Designed to stand up to higher velocities and longer operation. Kool Pack GT Pad is made of the highest quality Corrugated Cellulose Paper from Finland with higher absorbency rates than our standard pad. Specifically designed

for critical applications, Kool Pack GT Evaporative Cooling Pads are individually formed and

impregnated with thermosetting resins and rigidifying agents. The Kool Pack GT provides you with a superior pad that is strong & durable for longer service life, and has all the features to give you even water distribution and excellent cooling.
